

Gluten-Free Food Directory

AUGUST 2011

This directory lists most of the products we offer that are designed gluten-free by the manufacturer. There are many other gluten-free foods in the store, many of which are inherently gluten-free - but this directory includes only those specific products that indicate "gluten-free" on the label.

Read labels carefully, using the **Ingredient List for Gluten-Free Shopping** in our **Guide to Gluten Free Foods**, to find other foods that do not contain gluten.

This is not a comprehensive list of foods labeled "gluten-free," as our selection is always evolving based on customer feedback and product availability.

Your suggestions and comments are appreciated!
